

eLibraries and Medical Centers

National Hospital of Pediatrics

Hanoi, Viet Nam

Tuesday 13 March 2007

Who am I?

William F. Garrity

"Bill"

- **Director of Biomedical Libraries,**
Dartmouth Medical School/
Dartmouth College and
Dartmouth-Hitchcock Medical Center
- **Instructor,** Department of Community and
Family Medicine,
Dartmouth Medical School
- <http://www.william-garrity.com/>

Education

- BS, **Pre-medicine**, Siena College, NY
- MA, **Library and Information Science**, University of Chicago, IL
- Courses in **Business Administration (MBA)**, Kellstadt School of Business, DePaul University, IL
- **Courses in Intellectual Property**, Franklin Pierce Law School, NH

Career

- **Peace Corps Volunteer**, Costa Rica
- **Science Reference Librarian/
Biomedical Specialist**, University of Chicago
- **Executive Librarian**, Office of the University Librarian, University of Chicago
- **Associate Director**, Health Sciences Libraries, University of Pennsylvania
- Dartmouth

International Work

- Russia
- Kosova
- Tanzania

My Home and Family

Why am I here?

Why am I here?

- **Joseph Rosen**, MD, Professor of Surgery, Dartmouth Medical School and Dartmouth-Hitchcock Medical Center
- **Vo Thi Kim Hue**, MD--"Dr. Lily"--Director, Department of Community Child Health, Research, and Training

NHP's Challenges

- Resources (information resources)
- Staff knowledge and training
 - Clinical skills and knowledge
- Enable needs for primary care to be met locally
- Planning major institutional redevelopment

Biomedical Libraries' Mission

“... to provide health and life sciences information resources and services that support **research** and **scholarship**, **teaching**, and **patient-care activities** of Dartmouth Medical School (DMS), the Dartmouth-Hitchcock Medical Center (DHMC), and Dartmouth College.”

Our Clientele

- Physicians/researchers: 2,500
- Resident physicians: 367
- Medical students: 320
- Nurses
- Nursing students
- Allied health professionals
- Administrators
- Administrative support staff
- Patients and families
- Community

Organization

- Director of Biomedical Libraries
- Associate Director/Information Resources
- Associate Director/Health Sciences Library
- Associate Director/Education and Information Services
- Manager of Computing and Media Services
- 13 exempt staff
- 18 non-exempt staff

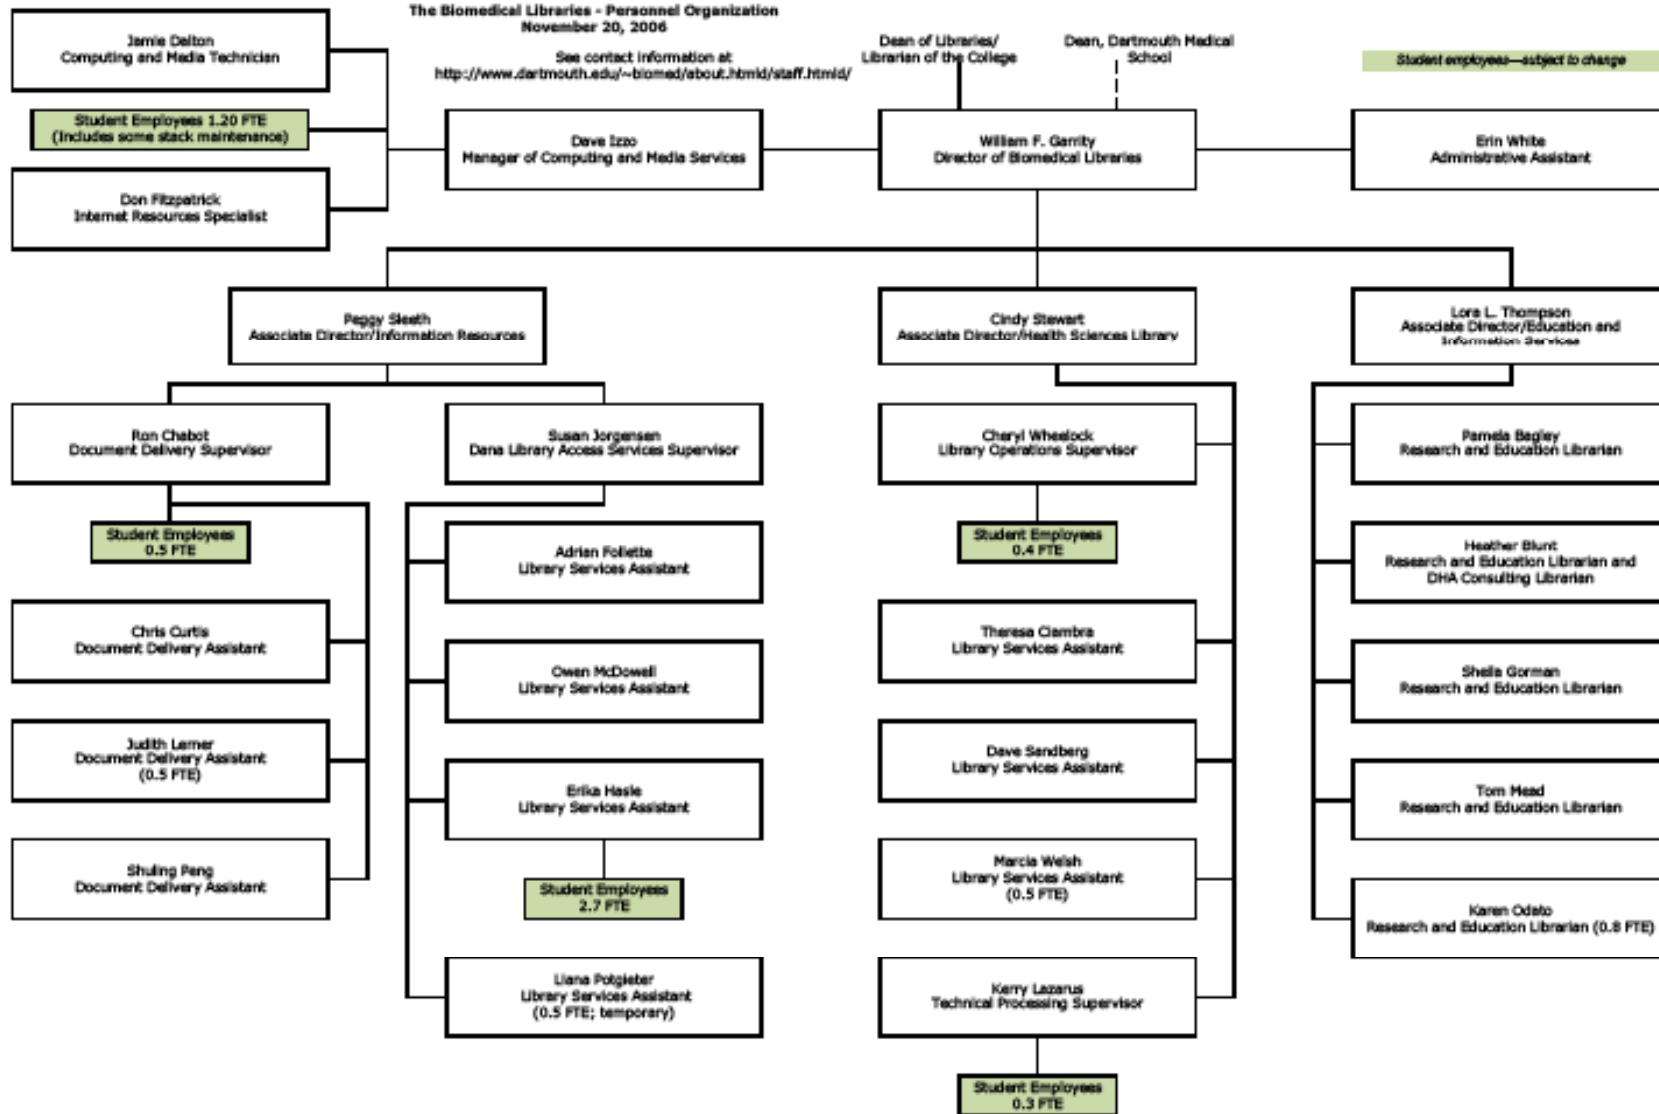

The Biomedical Libraries - Personnel Organization
November 20, 2006

How Library Services for Clinical Staff Improve Quality

- Quality improvement and improved patient care
- Keep clinicians and administrators current with the medical literature, health care trends, etc.
- Retrieval of "best evidence" for patient care (EBM)
- Contribute to reduction in medical errors
- Contribute to patient safety
- Accreditation

Our Priorities

- Information resources
- Education
- Communication

Information Resources

- 270,000 volumes, including over 100,000 books
- Over 3,500 journals available in digital and/or print
- Databases and decision support tools

Information Recourses, cont'd

- Journal literature: not so much
- Textbooks
- "Synthesized information"
- Evidence-based medicine, practice
- Clinical decision support tools

Education

- 250 programs
- 2,600 participants
- Scheduled classes
- Large- and small-group presentations
- Library Grand Rounds
- Medical School curriculum
- Graduate Medical Education
- Continuing Medical, Nursing Education

Topics

- Information retrieval
- Information management
- Publishing
- Presenting
- Data analysis
- Quality improvement

Communication

- Medical School and Medical Center administrations
- Library Liaison Program
- Library Advisors

NHP: Limited Resources

- Journal literature: HINARI
- Textbooks?
- "Synthesized information"?
- Evidence-based medicine, practice?
- Clinical decision support tools?

NHP: Primary Care

- More information resources in hands of clinicians in region and commune
- Enable more care before patients reach NHP

NHP: Institutional Redevelopment

- My suggestions
- Thoroughly involve library resources and services in expanded facility
- Make library center of teaching and learning in expanded facility
- "Information commons"
- Put Library throughout hospital

Next?

- **EBM** presentation tomorrow
- **eLibrary "clinics"** this afternoon and tomorrow afternoon
- **Learn** about NHP's other international partnerships (esp. RCHI)

National Hospital of
Pediatrics

Dartmouth Biomedical
Libraries

Thank You!
